

THE KELOWNA COURIER

AND OKANAGAN ORCHARDIST

VOLUME 17

Kelowna, British Columbia, Thursday, August 19, 1920

NUMBER 5

WEEKLY CROP AND WEATHER REPORT

Department of Agriculture, Okanagan Horticultural Division

Office of District Horticulturist, Vernon, B. C., August 14, 1920.

There has been much activity during the past week in the soft fruit business all through the valley and considerable tonnage has been shipped. We note with a great deal of pleasure the presence in the valley of Mr. G. E. McIntosh, of the Federal Department of Agriculture, who is very closely investigating the transportation problems connected with soft fruit shipments to prairie points, and it is hoped that much information will be gathered by him during the season which will be of great benefit to the shippers and growers throughout the Okanagan.

Mr. R. G. L. Clarke, Chief Dominion Inspector, is assisting Mr. McIntosh in his investigations.

Soft Fruits

The apricot season is nearing a close and it is with great regret that we must state that the quality has not been up to the standard on this crop. It was anticipated that the later varieties such as Moorpark would size up well, but the extremely hot, dry weather hastened the ripening period, and this coupled with the poor cultural methods of a great majority of growers resulted in very small and inferior fruit in a great many cases. This condition should be remedied from now on, as first-class apricots are at a premium on the market, and if the growers of the Okanagan are to hold up their reputation for first-class fruit of this variety, a very great effort must be made to improve the quality in future years.

We would unhesitatingly recommend the use of a leguminous annual cover crop such as Hairy Vetch planted at once in those orchards to be ploughed under next May. This should be done each year or until the plants show the influence of too much nitrogen, in which case the Hairy Vetch crop can be alternated with a non-leguminous crop such as Fall Rye. An application of three pounds of nitrate of soda per tree to the orchards next spring will materially assist in the setting of fruit and the sizing for the coming season. This should be applied as early in the spring as the ground can be harrowed. Judicious heavy pruning each year is necessary with apricots, and if this is done thoroughly and the thinning attended to, and the fertility of the soil improved, there is no reason why the Okanagan valley cannot produce the very finest quality apricots, but unless these factors are attended to on the part of the growers, there is very grave danger of our apricots falling into disrepute.

Sour cherries are still rolling in considerable quantities from the north end of the valley.

Peaches

Peaches are moving in increased quantities, principally Triumph and Victor varieties. They are very free from Peach Worm on the whole but show a general tendency to be small in size.

Peach Plums and some of the earlier varieties are rolling quite freely and the quality generally is good.

Pears

Small shipments of these were made from Keremeos section this week, and the quality is excellent. Bartlett's are sizing well and should start to roll in about ten days time from the earlier sections. A splendid crop of pears throughout the valley.

Apples

The Yellow Transparent are moving, and are rather small in size, but the Duchess and Wealthy give promise of being average quality. The high wind of this week did very little damage on the whole throughout the valley.

Vegetables

Heavy shipments of cucumbers, peppers, cabbage and early potatoes are reported, but the market is none too stable and much dissatisfaction is occurring.

A 45-mile gale was reported from Summerland on Tuesday afternoon but little damage has occurred to the fruit. The irrigation supply is holding up well on the whole, but in some districts a very careful watch must be kept on growing fruit in order that the water supply to the trees be steadily maintained, as a constant moisture supply is very important at this stage.

VETERAN NEWSPAPER MAN PASSES AWAY

RICHMOND, Va., Aug. 19.—Colonel Charles E. Hasbrouck, 73, editor and manager of the Richmond Times-Dispatch, died here last night of heart failure.

HAMILTON BUSINESS MAN IS HEAVILY FINED

HAMILTON, Aug. 19.—James P. Sneedman, a Hamilton business man, was fined \$2,100 in the Police Court here yesterday for failing to make an income tax return.

RED TIDE IS BEING REPELLED IN POLAND

WARSAW, Aug. 19.—The Poles are steadily driving back the Soviet armies and have retaken the fortress of Brest-Litovsk and considerable war material. The Reds are almost in a panic, and prisoners are pouring into Warsaw in such numbers that the handling of them constitutes a problem. If the drive continues for another three days, the rout of the Soviet forces will be complete.

FALL FAIR SPECIAL PRIZES

Mrs. Geo. Rowcliffe has donated a first prize of \$3.00 and second prize of \$2.00 for the best knitted wool cap and scarf.

For the best collection of fruit and vegetables, preserved, canned, pickled, dried, etc., not less than 15 and not more than 20 jars in exhibit, Thomas Lawson, Ltd. are giving a first prize of \$15.00 and a second prize of \$10.00. Entries to be made by September 1.

OFFICERS OF THE CANADA RIFLE LEAGUE

OTTAWA, Aug. 19.—Lieut. Col. C. M. Edwards, D.S.O., commanding officer of the 38th Ottawa Regiment, was elected president of the Canada Rifle League at the annual meeting held yesterday, and Col. J. Duff Stuart, of Vancouver, was chosen as first vice-president.

GLENMORE

Mr. and Mrs. T. M. Ryall, accompanied by Mrs. Andrews and Mrs. Stanley, left on Friday morning for a motor trip to Vernon, Kamloops, etc. They are planning to return via Merritt, Princeton, etc.

Mr. and Mrs. George Kerr left on Thursday for a trip down south. At Penticton they made a detour to visit their son Douglas at Naramata.

The Rev. Ferguson Millar, of Penticton, conducted the service in the school room on Sunday evening. Next Sunday the Rev. Mr. Dow, of Enderby, is expected to conduct the service.

Mrs. R. E. J. Hunt returned from Naramata on Tuesday.

SHAMROCKS WANT A BIG GUARANTEE

MONTREAL, Aug. 19.—The Shamrocks want a guarantee of \$7,000 to go west and play for the Minto Cup. B. C. Provincial exhibition officials offer \$3,000 and to split the gate-money for a series of three games during the exhibition, from Sept. 27 to Oct. 2.

MANY IMMIGRANTS REACH THE WEST

WINNIPEG, Aug. 19.—During the first six months of the year, 19,869 immigrants from Europe and the United States passed through Winnipeg to homes in the West. According to figures compiled at the Immigration Hall, the settlers brought more than \$6,000,000 in cash and goods worth about \$2,000,000.

WOODS LAKE

Mrs. A. N. Claggett arrived back from Missouri on Sunday morning.

Mr. and Mrs. Colman and family have removed into Kelowna this week, having rented a house on Bernard Avenue.

Early Sunday morning the Irrigation Company's water main on the range suddenly gave way and a considerable stream of water came roaring down the hill. Mr. McCarthy and Mr. Powley certainly got more than the usual ration. The flow was soon stopped and the pipes replaced, so that little inconvenience was felt.

A good number of Woods Lake people were in town last Wednesday and Thursday for the Regatta.

Early apples, Yellow Transparent, Red Astrachan and Duchess, and some plums have been shipped from this district, but tomatoes are rather slow in ripening.

RIGHT OF WAY FOR THE FIRE BRIGADE

PROVISION WILL BE MADE IN STREET TRAFFIC BY-LAW—NO PARKING OF VEHICLES NEAR HYDRANTS—DAIRYMEN OBJECT TO CIVIC METHODS OF TESTING MILK

Ald. Shepherd was the only absentee from the regular meeting of the Council on Monday night.

Two local dairymen, Messrs. G. Brown and J. Birch, appeared before the Council to express their dissatisfaction with the manner of taking tests for inspection purposes of milk offered for sale within the city.

Mr. Birch said he had always obtained satisfactory results from tests made by the government tester and at Bankhead, but the tests made by Mr. Thomas, of the Kelowna Creamery, always showed a lower percentage of butter fat. It was not fair that the testing for the city should be carried out by a firm which was competing with the dairymen, and he urged that the test be made by some independent, impartial authority. It was impossible to run milk always of the same quality. Sometimes a cow went high over the standard, when no credit was given, and again she might go low. Some of his cows had tested as high as 4.9.

Mr. Brown also spoke. He said he was in a somewhat different position from Mr. Birch, having to rely for the quality of his milk upon the people from whom he bought it. His test had been 3.2, but the cows in the herd of Mr. Day, from whom he bought the milk, had tested 4.2 within a few days of the date of his test, and the discrepancy was very strange. He had not reduced or interfered with the quality of the milk; he gave it out just as he received it. The Mayor expressed sympathy with the position taken by the dairymen, and promised that any tests taken in future would be made by some independent authority such as the Medical Health Officer.

Another deputation, consisting of Messrs. M. A. Alsgard and D. Chapman, represented the views of the Fire Brigade in regard to certain provisions which they desire to have incorporated in a by-law for the regulation of traffic within the city.

Mr. Alsgard submitted the need of a clause giving the fire apparatus right of way in the event of fire. At present, on the sounding of an alarm, a number of cars would immediately follow the first truck, thus getting in the way of the second truck, and it was necessary to stop this practice. Another necessary matter was to forbid the parking of cars or other vehicles within eight feet of fire hydrants. In the event of a fire breaking out in the business section, serious delay to the work of the Brigade would be encountered, owing to lack of room round the hydrants.

Mr. Chapman said the Brigade had examined the Vernon by-law, which provided that, in the event of a fire alarm, all traffic must pull to the side of the street and stop so as to give the fire apparatus a free right of way, and the fire trucks were also exempted from the provisions as to turning a certain side of the "silent policeman." An appeal had been made by the Brigade to the public to keep their cars out of the way of the fire apparatus, but it did not have much effect and it was necessary to secure the weight of enforcement by by-law. He mentioned that last Saturday night it was estimated that three hundred cars were parked on Bernard Avenue and adjacent corners, and in some cases the hydrants could not possibly be reached by the Brigade without moving cars, in the event of a fire; hence the need of providing a clear space round the hydrants under penalty for breach of the by-law.

Discussing the points submitted, the Council agreed that legislative action was necessary, and covering clauses will be inserted in the by-law when it comes up.

Ald. W. Lloyd-Jones drew attention to the need of some form of spark arrester at the power house. He said he had just been over there owing to the fact that sparks from the smoke-stack were flying all over the mill yard. He found the power house was using shavings for fuel, the supply of sawdust being short, and when shavings were burned the sparks flew out of the stack much more than when other forms of fuel were used. He had taken the precaution to have the ground sprinkled by means of hose to avoid any danger.

It was stated that it might not be possible to put a spark arrester in the stack unless the latter was taken down, but the Mayor pointed out that this would mean no water or light for the city and he thought any necessary changes could be installed without entailing such risk and inconvenience. The matter will be enquired into.

A letter was submitted from Dr. Wright stating that, owing to the high cost of building, he had decided to withdraw his application for a house under the Housing Act.

The Mayor announced that since last meeting he had received a plan and proper description of the hotel site at the corner of the Park from the surveyor, Mr. Barton. The City Solicitor had a by-law under preparation but it was not ready yet, and His Worship suggested that a special meeting be held on the following Monday, when the street traffic by-law and other matters could also be taken up. Agreed.

Mr. Geo. L. Dore applied to purchase Lot 5, Plan 1178, for \$150, and forwarded a cheque for that amount. The application was accepted, and a By-law, No. 279, in connection therewith was given three readings.

Mrs. Alice Symonds applied for an option on Lot 23, Plan 1246, and Mr. J. Symonds for an option on Lots 12 and 13, Plan 1246, the price named in each case being \$125. A motion was passed granting the options, in consideration of a payment made of one-third down.

Reporting on the application made by the three firemen at the power house for an increase of wages, Ald. Duggan stated that the Chief Engineer spoke very favorably of the work of the men and recommended that an increase be given them. It was accordingly decided, on motion, to grant the firemen an increase of \$10 per month, being from \$115 to \$125, with effect from August 1.

Ald. Meikle, chairman of the Board of Works, reported that he had closed down practically all the work on the streets on Saturday and had laid off the teams.

The Mayor stated that Foreman Swanson informed him he was having great trouble with the old plank sidewalks, which were going all to pieces.

Ald. Meikle said that difficulty had been experienced in obtaining plank for repairs to the sidewalks, but some had now been secured and Foreman Swanson had two men at work doing that patching was feasible.

Speaking for the Finance Committee, Ald. Rattenbury said there would be no more money available for city work, as the funds would be required to meet the interest on debenture coupons falling due.

By-law No. 278, for temporary loan from the Bank of Montreal against current revenue, was reconsidered and finally adopted.

By-law No. 277, for the sale of Lots 23 and 24, Plan 1039, to Mrs. Hulda Pauline Hill, also received its final passage.

It was intimated that a tax sale will be held on September 1.

The Council adjourned until Monday next, August 23.

ANGLO-FRENCH ENTENTE IS NOW RESTORED

PARIS, Aug. 19.—Complete agreement has been effected between France and Great Britain upon the General Wrangle issue. Negotiations were concluded satisfactorily yesterday by Lord Derby, and a French official statement was issued late last night.

INTERRUPTION TO PEACE NEGOTIATIONS

LONDON, Aug. 19.—The Russo-Polish peace negotiations at Minsk were not continued yesterday as agreed. According to a wireless message from Moscow, sent by George Tchitcherin, Soviet Foreign Minister, to Leo Kamenef, Soviet representative in London, the fault lay with the Polish delegation.

AMERICAN WORKERS HAVE A BAD TIME

CONSTANTINOPLE, Aug. 19.—Showered nightly with Turkish bullets and facing famine, eighteen American workers of the American Relief Commission in the Near East have been besieged in Adana, Asia Minor, since June 20.

LLOYD GEORGE IS NOT COMING TO CANADA

LONDON, Aug. 19.—It is officially denied here that Premier Lloyd George is going to Canada, as has been stated. He has gone to Switzerland for a week's rest.

JOHN FLEMING GETS EIGHTEEN MONTHS

John Fleming, committed for trial to a higher court on Monday by Police Magistrate Weddell, on two charges, of being in possession of stolen goods and of theft, elected for speedy trial before Judge Swanson at Vernon yesterday. He was convicted and sentenced to twelve months' imprisonment on one charge and to six months on the other.

NARAMATA VISITORS MAKE MERRY IN CITY

A happy picnic party from Naramata invaded Kelowna on Saturday evening. Originally intended to consist of summer visitors to Naramata who might not otherwise have an opportunity of visiting our happy situated town, it in some unaccountable way came to include four Naramatians. Three chaperons accompanied this party of young people. Chartering the "Skookum," they left Naramata about 4 p.m. Saturday, filling the boat to capacity. Some, one jokingly remarked that with all the paraphernalia of blankets, provisions, gramophone, etc., they needed to charter the "Okanagan." After visiting and admiring our stores and enjoying the beauty of the Park, some took in the pictures, while others accepted invites to the Saturday night dance at the Aquatic. Camp was pitched at Westbank. After lunch the next day they visited the survey camp on the Kelowna-Naramata road, making good use of Dave Godd's shack, with its mirror, etc. Supper was served on board, and the jolly party arrived at the Naramata wharf about 9:30 p.m. Mr. Douglas Kerr, of Glenmore, who was one of the party, met many old friends.

ADDITIONAL LOCALS

Mr. F. J. Wood, of Ewing's Landing, was a visitor to town on Wednesday.

Judge and Mrs. Swanson came down from Vernon last night with Provincial Constable Graham in his car, and are enjoying a brief holiday in town.

Mr. E. J. Conrad, field secretary of the United Typothetae of America, spent the week-end as the guest of Mr. John Leathley, exploring the valley of Mission Creek on horseback. He left for the north on Monday.

Heavy rain on Tuesday morning subdued to a considerable extent the forest fires raging back of Peachland, which covered the valley with a heavy pall of smoke from Friday last, and, in addition to clearing the air, caused a decided drop in the temperature, so oppressive during last week. Vernon suffered a good deal more from the heat than Kelowna. A thermometer in the Kalamalka Hotel office recorded 80 degrees at 11 o'clock on Friday night.

The provincial police authorities have determined to enforce rigidly the regulations as to head-lights contained in the "Motor-Vehicle Act," especially in regard to the mounting of lamps so that no portion of the beam of light, when projected seventy-five feet or more ahead, rises above a plane forty-two inches higher than and parallel with the plane on which the motor-vehicle stands. Glare lights have been responsible for a large proportion of the accidents that occur at night, and the police will prosecute without further warning any persons disregarding the provisions of the Act in this regard.

BENVOULIN

The regular meeting of the Benvoulin United Farm Women will be held on Thursday afternoon, August 26, at the home of Miss D. Day. A good attendance is requested.

Mr. and Mrs. Myers, of Spokane, Wash., spent a few days of last week with Mr. and Mrs. Rawlins.

This week sees the beginning of the tobacco harvest, Mr. Chamberlain having started cutting his crop on Tuesday.

Mr. W. S. Young and family, of Naramata, were visiting Mr. and Mrs. J. B. Fisher during Regatta week.

Mr. DeMauner and son and daughter, from Cluny, Alta., were visiting Mr. and Mrs. G. Rawlins during last week.

Mr. and Mrs. McPhee-Ferguson, of Yakima, arrived by motor on Wednesday last to visit Mr. and Mrs. J. B. Fisher.

GOES TO HIGHER COURT FOR HEARING

John Fleming Committed for Trial on Two Charges

On Saturday morning last in the Provincial Police Court, John Fleming, the man arrested on a charge of being in possession of goods stolen from the store of the Leckie Hardware, Ltd., on or about the night of the fire there, appeared before Magistrate Weddell and was committed for trial.

The property found in his possession, which was discovered buried in a saw-dust pile adjacent to the cottage where he was living at the upper end of Glenmore, was arranged in the court, and was identified by Mr. Leckie. It consisted of 47 pocket knives, a variety of pearl and silver handled knives and forks, a large compass and many other articles, the whole being valued at \$263, and this, Mr. Leckie stated, represented only about one-third of the total amount of goods missing. All the prisoner stated was that when he took possession of the goods from Roberts he did not realize they were stolen and that he was drunk at the time.

On Monday morning, however, Fleming was again brought before the Magistrate, and this time the charge was one of theft, the alleged stolen goods being a number of articles claimed to be the property of Mr. Robert Pearson and to have been removed from his dwelling during a six months' absence. These consisted of mattress, pillows, blankets, old coins, keys, a quantity of carpenter's tools, a pair of mitts and many other articles, in all valued by the rightful owner at \$200. Mr. Pearson stated that during his absence the hasp of his place was filed through, the padlock removed, and many of the contents stolen. He noticed the mattress lying on Fleming's bed when looking through the window there, and investigations by the police discovered the other articles in Fleming's cottage at Glenmore. The accused was committed for trial on this charge also. In each case, the prosecution was supported by Mr. E. C. Weddell.

Although Fleming's demeanor and lameness would indicate that he is a man of quiet habits, his recent neighbors in Glenmore tell a very different tale, and this seems to be borne out by the police, who discovered four revolvers in his possession when arrested. He was taken up to Vernon by Provincial Constable Graham on Monday afternoon, to await trial.

OBITUARY

The Late Mr. R. J. Sproule

After a prolonged illness, there passed away at Victoria, on Wednesday, August 11, Mr. Robert John Sproule, aged 57, for many years a respected resident of the Rutland district, where he was engaged in farming. Suffering from anaemia, Mr. Sproule moved to the Coast several months ago, but the change brought no improvement of health.

Interment was made in the family burial plot in Vancouver.

The deceased is survived by Mrs. Sproule and one daughter, Lillian. Three brothers also survive: Samuel, who also lived in the Rutland district for a lengthy period but is now resident in California; W. T., in Vancouver, and Nathan, in Spokane. A sister, Mrs. Frank Stevenson, resides at Lost Lake, Alberta.

SUSPECTS IN MURDER CASE ARE RELEASED

VANCOUVER, Aug. 19.—William Coleman and Fred Saunders, who had been held for enquiry by the police following the discovery of the murder of Mrs. Sampson at the Castle Hotel, were released this morning. Coleman yesterday furnished the authorities with a statement of where he had been on Monday night. This was checked and it was found Coleman had a perfect alibi. It was also ascertained that Saunders was out of the city on Monday night, and when it was apparent that neither man had anything to do with the tragedy, the police gave both of them their freedom.

C. P. R. STEAMER TO BE BUILT AT VANCOUVER

VANCOUVER, Aug. 19.—The Wallace Shipyards have secured a contract with the C. P. R. for the construction of a coastwise steamer at a price of \$1,500,000. The ship will measure 320 feet in length, will carry a crew of 80 and 680 passengers, and will have a speed of 17 knots.

THE KELOWNA COURIER

AND

Okanagan Orchardist.

Owned and Edited by

G. C. ROSE

SUBSCRIPTION RATES

(Strictly in Advance)

To any address in the British Empire,
\$2.50 per year. To the United
States and other foreign countries,
\$3.00 per year.

The COURIER does not necessarily
endorse the sentiments of any
contributed article.

To ensure acceptance, all manuscript
should be legibly written on one
side of the paper only. Typewritten
copy is preferred.

ADVERTISING RATES

Classified Advertisements—Such as,
For Sale, Lost, Found, Wanted,
etc., under heading "Want Ads,"
First insertion, 15 cents per line;
each additional insertion, without
change of matter, 10 cents per line.
Minimum charge per week, 30
cents. Count five words to line.
Each initial and group of not more
than five figures counts as a word.
Filling fee for box numbers, c/o
The Courier, if desired, 10 cents
extra.

Transient and Contract Advertisements—Rates quoted on application.
Legal and Municipal Advertising—
First insertion, 15 cents per line;
each subsequent insertion, 10 cents
per line.

Contract advertisers will please note
that, to insure insertion in the
current week's issue, all changes of
advertisements must reach this
office by Monday night. This rule
is in the mutual interests of patrons
and publisher, to avoid a congestion
on Wednesday and Thursday and
consequent night work, and to
facilitate publication of The Courier
so as to reach country customers
before Saturday.

THURSDAY, AUGUST 19, 1920

Orchard Run

When the subscription rate of The
Courier was raised during February
last from the rate of \$1.50 per an-
num, at which it had remained dur-
ing twelve years, it was intimated
that, if the price of news print con-
tinued to advance, it might be found
necessary to make a further increase.
We regret to state that the necessity
has arisen and that we are compelled
to bring the annual subscription rate
up to \$2.50 per annum, which is prac-
tically the retail price of the paper as
sold in stores and on the streets.
News print has climbed during the
past few months with unprecedented
speed. The 1913 price was 4½ cents
per pound; in September, 1919, it was
7 cents; since then it has advanced at
the rate of one-half to one cent per
pound every two months or so. In
February last, when our subscription
rate was raised, it was 8 cents; now
it is 12½ cents. The advance in sub-
scription rates has not kept pace with
the advance in paper, and fair-minded
people will agree that subscribers
should bear a portion of the burden
as well as the advertisers.

The Eastern rural weeklies, which
remained at \$1.00 for many years,
have nearly all advanced their rate
to \$2.00 or \$2.50, although they are
still able to purchase news print for
considerably less than is paid by pub-
lishers in the West, and many of the
small weeklies on the prairies have
advanced their rates from the former
low figure of \$1.00 to \$2.50 during
the past few months.

Our new rate goes into effect
forthwith as regards new subscrip-
tions, but renewals will be accepted
up to August 31 at the rate of \$2.00.
We would urge any subscribers in
arrears to clear up their account and
secure a renewal on the \$2.00 basis.

The twelve printing and publishing
firms in Kamloops, Revelstoke,
Salmon Arm, Enderby, Armstrong,
Vernon, Kelowna, Summerland, Pen-
ticton and Princeton have affiliated
through their local organization, the
Okanagan Press Guild, with the
United Typothetae of America, an
association of many years' standing
which includes in its membership
most of the printing firms of repute
on the American continent. Its ef-
forts for a number of years past have
been directed to educate printers to
do better work through the establish-
ment of technical courses in the
higher branches of the art, and to
place the industry upon its proper
plane by means of cost and time-
keeping systems, which have been
sadly neglected by the average em-
ployer.

At a meeting of the Guild, held at
Vernon last week, every Okanagan
publisher was present to learn the
interesting and valuable results of a
survey recently conducted of all the
printing businesses in the valley by
Mr. E. J. Conrad, field secretary for
the Typothetae. The information
collected was exhibited in chart
form, and three of the charts may be
reproduced herewith as showing the
value of the capital investment, the
number of employees—all highly-
paid but the boss—and the ridicu-

lously small margin of profit earned
by the twelve plants in aggregate.

Chart No. 1—Equipment

Linotypes	11
Platen Presses	26
Cylinder Presses	12
Bindery Machines	43
	92

Chart No. 2—Employees

Office	21
Special	15
Hand Composition	3
Machine Composition	7
Pressmen	9
Apprentices	4
	59

Chart No. 3—Grand Survey

12 Plants, 1919

(Total Investment, \$107,685)

Total Mechanical Pay Roll	\$ 52,504
Department and Overhead	
Expenses	82,143
Material and Outside Pur- chases	26,522

Total Cost.....\$161,169

Total Sales.....169,221

Profit (5%).....\$ 8,052

The rate of profit, at which any
ordinary business man would turn up
his nose, shows why printers are not
large purchasers of Victory Bonds,
and that prices for printing have not
kept pace with the tremendous in-
creases in the cost of materials and
labor.

At long last the "Okanagan" has
been put into service, but so far the
effect has not been to restore the
regularity of schedule of the "Sica-
mous." On Saturday, the latter did
not leave Okanagan Landing until
4:30 p.m., most of the delay being due
to the time taken to unload the large
cargo she had brought up from the
south that day. As long as she is
used to such an extent as a freight
boat, the passenger service will con-
tinue to be exposed to exasperating
delays, and the Okanagan valley cer-
tainly deserves something better than
the ten miles per hour speed or less
at which the journey between Sica-
mous and Penticton works out at
present.

Local motorists are complaining
bitterly of damage done to their tires
by quantities of nails lying on the
streets. Yesterday, a large number
of bent and twisted nails of all sizes
could be seen on Bernard Avenue
within a few feet of the taxi stand
near the C. P. R. wharf, any one of
which was calculated to wreak de-
struction upon a costly tire. The nails
seemed to have been dumped on the
street in the artless manner with
which other rubbish is similarly de-
posited and without regard to what
damage they might cause.

Taking keen pride in our lovely val-
ley, it is painful to admit that Ke-
lowna is one of the most untidy
towns in the province. The business
quarter is littered with waste paper,
suffered to lie upon the street un-
heeded, there are no bins for the de-
posit of orange peel, cigarette and
chocolate bar wrappers and similar
debris, and broken bottles, old tins
and scraps of metal lurk in ambush
for the unfortunate motorist, if he is
daring enough to traverse the lanes.
Surely there is a remedy and not a
very expensive one. The civic auth-
orities indulge in a spasmodic fit of
cleaning-up once in a long while, but
the intervals in between are very long
and regularity of collection of rub-
bish is required. We have frequently
suggested methodical collection by the
city scavenger, with imposition of a
frontage tax in the business quarter
to cover the service, but the sugges-
tion goes unheeded, and we can only
conclude that the municipal authori-
ties and the citizens are unashamed
of the untidy appearance the town
presents to visitors, and are content
to let the streets be used as advertis-
ing billboards for Player's cigarettes
and Neilson's milk bars and as a race
course for flying sheets of paper.

G.W.V.A. NOTES

There appears to be nothing new
in the local political situation, and
we have not heard of any more Ver-
non candidates lately.

We noted with interest the excit-

ment said to exist in ex-service
circles over the possibility of war
with the Bolsheviks. While the vet-
erans are as loyal as ever, it is a safe
bet that if war should come they will
endeavor to see that some of the
slackers in the last war go first, and
that there is a little more equality of
sacrifice generally. We rather won-
der that Sir Sam Hughes hasn't sub-
mitted plans for saving Poland or at
all events called the attention of the
Polish leaders to the merits of the
Ross rifle as a prop for dug-outs.

We are glad to see that the
"Courier" took the common-sense
view of the Sunday football at the
Boy Scouts' camp. The writers in the
"Summerland Review," on the
other hand, take the narrow Puritan
viewpoint. We never heard of an
Army chaplain opposing sport on
Sunday afternoons. If they had, their
usefulness would soon have been at
an end. The Lord's Day Alliance
people in Ontario have largely suc-
ceeded in banishing all wholesome
amusement there on Sunday after-
noons. They even stopped children
tobogganing in the City parks. Like
the prohibition fanatics, they are a
well organized body. We would like
to know what the G. W. V. A. of
Summerland think of the attitude of
the "Summerland Review."

There was a very fair attendance
at our last meeting on Saturday.
The action of one contractor under
the Housing Act in employing alien
labor was much criticized.

As regards the Housing Act, ap-
parently about thirteen millions out
of the twenty-five millions have not
been applied for. It would be inter-
esting to know how many ex-service
men have benefited. The twelve mil-
lion unused should be turned over to
the Soldier Settlement Board to be
loaned to ex-service men and enable
them to build houses either in the
cities or rural districts. The machin-
ery at present existing is too cumber-
some. The G. W. V. A. brought this
matter before the special committee
on soldiers' civil re-establishment
during the 1919 session. If handled
by the S. S. B., costs could be materi-
ally lessened by wholesale purchase
of the necessary material. Men who
have lived in leaky and lousy dug-
outs for months at a time want and
must have decent homes to bring up
their families in. It is the most
pressing question in Canada at the
present time, and its solution would
tend more than anything else to
diminish the present social unrest.
It cannot be solved by the Dominion
House "passing the buck" to the
provinces and municipalities.

There are a certain number of
empty shacks in town, owned prob-
ably by absentee owners, which, if
rented, would help matters locally as
a temporary expedient. These people
might be approached by the City
Council and asked to make the
shacks available.

British Columbia Makes This Jam

We do not try to make jam in any other way than the old-fashioned one, fresh strawberries and pure sugar cooked down together.

QUAKER BRAND JAM is unusual, in the care we take to cook the strawberries as soon as they come in from the fields.

This gives the Jam a delicious freshness of flavor.

Dominion Canners B.C., Limited

Mrs. T. H. Dartt Likes the Flavor

Mrs. Dartt says they use Pacific Milk for everything but tea.

She had tried canned milk as "a make-do" on several occasions but could never learn to like it.

Finally one day when they were out of milk she got a tin of Pacific.

The flavor was so natural and a cake turned out so well that she tried it again.

Now they use about thirty cans a month.

UNITED FARMERS PICNIC ON SHUSWAP LAKE

Excursion Combines Propaganda Work With Pleasure

(Contributed)

The steamboat "Andover" left Sicamous on the morning of Wednesday, August 11, carrying a large party of members of the U. F. B. C. and certain distinguished guests on a tour of discovery and pleasure, organized by Mr. J. M. Humphrey, along the shores of the Shuswap Lake to Chase. The party was composed of Mr. F. J. Fulton, M.P., Mr. Walter Bews, Mayor of Revelstoke, and Mrs. W. Bews; Mr. R. A. Copeland, of Lumby, President of the U. F. B. C.; Mr. J. L. Pridham, its First Vice-President, and Mrs. Pridham; Mr. J. M. Humphrey, the Second Vice-President; and Official Organizer, and Mrs. Humphrey; Director Mr. A. T. Howe, of Vernon; Mr. and Mrs. Laidman, also of Vernon; Mr. McPhail, of Salmon Arm; Mrs. Fraser, of Canoe; a large party from the Malakwa Local, including Mr. E. Ericson, J.P., and Mrs. Ericson; Mrs. Anderson, and Miss Florence Anderson; Mrs. J. Mizon, Miss Aubrey, and many others. The Solsqua Local was represented by Mr. and Mrs. Jessop, Mr. and Mrs. J. Eyre, Messrs. Bertois, Breary, Hollett, and their friends. Mrs. Bruhn joined the party at Sicamous with many others from different points.

The object of the excursion, besides the promotion of social intimacy between the various locals with its free interchange of ideas and discussion of community problems, was to point out, in a most practical way, to the residents of the district the opportunities for recreation and pleasure that lie unheeded at their door. It was hoped, too, that representatives of the transportation companies and of the government would be able the better to realize the necessity of transport facilities that are vitally important to the settlers along the shores of the lake both from the point of view of a commercial enterprise and the development of the country where it is needed and is capable of development. How long will the fact remain unrecognized that on and about the shores of this beautiful lake are all the "essential" features beloved by the tourist?

The party would have been larger but for the prevalence of forest fires whose extinction called—and still calls for—the help of every available man. It was feared too that the smoke would obscure the view; but, if anything, the gentle haze that wrapped the hills unfolded their grandeur the more slowly as the vessel proceeded.

The boat put in at Anglemont and the party lunched in a grove of firs above the beach. Time did not permit any extension of this enjoyment and the journey was continued to Magna Bay where Mr. Harry Fraser, the Chairman of the Magna Bay and Celista Locals for the time being, was waiting to receive the visitors and conduct them to the school house in which the ladies of the district had kindly provided refreshment. The chairman, in extending a cordial welcome to the party in the names of the Locals and residents of the Lake, pointed out that Magna Bay was roughly the geographical centre of the largest area of agricultural land on Shuswap Lake with the possible exception of Salmon Arm. From Anglemont and Ross Creek flats in the east to Celista and Scotch Creek Flat in the west, and stretching back to the mountains in some places three and four miles, there is one continuous settlement, with Eagle Bay on the south side of the Lake. As is often the case, he showed how little the traveller by water saw of the orchards and hay meadows, dairy farms and the newer houses of the returned veterans. He ventured to prophecy that it would be impossible to find a more prosperous, happy and beautiful settlement in the whole of British Columbia in a few years' time. What the district needed, however, was more people, more homes, and the advantages of a civilized community.

Mr. Fraser pointed with pride to the new school house built by voluntary labor. All expense for material had been met from school taxes. They had in hand a "nurses' home" to serve the lake from the Narrows to Scotch Creek and Blind Bay. Dealing with the question of roads, he did not think they had been as well served as other districts. He hoped to see a comprehensive system of road building undertaken in the district. Lake transportation was still undeveloped. The settlers are of the opinion that the only satisfactory solution to this problem is for a government-subsidized steamboat to ply between Chase and Salmon Arm twice a week, calling at all intermediate points. Such a boat would handle all classes of freight and should have adequate passenger accommodation. If the government would only give this a trial it would not be many years before the subsidy could be dispensed with. Further, the district needed in the worst way an extension of the telephone system from Celista to Anglemont, a distance of eight miles, to afford residents at the eastern end of the lake direct communication with the outside, invaluable in the case of sickness and for business.

Mr. Fulton, M.P., in a brief address said that, although he had lived at Kamloops for thirty years, he had never before realized to its fullest extent the beauty of the scenery along the shores of the lake. Coming to the practical issues under discussion with which he was concerned as member for that district, he showed how, in spite of his best endeavors on their behalf, the responsibility of not granting the reasonable facilities demanded lay with the Minister of Public Works at Ottawa.

Mr. R. A. Copeland, who followed Mr. Fulton, ably made use of this admission to drive home the necessity of the Farmers' organization with a strong united body of public opinion to back up the just demands of such growing localities as Magna Bay and Celista.

Mr. A. T. Howe, who spoke next, was limited to three minutes, but he occupied this time so forcibly that he left the impression that one wanted to hear more.

A vote of thanks was passed to the ladies of the district and the feeling undoubtedly existed as the party again boarded the "Andover" that one object of the trip was already attained, that of creating a bond of sympathy between Locals with the assurance that their troubles would be met co-operatively in the future. No better means could hardly be utilized to weld scattered and isolated communities together.

From Magna Bay the lake was crossed and the journey continued, passing by Blind Bay and Sorrento, thence through Little River into the Little Shuswap Lake to Chase. The final stages were enlivened and made interesting by further short talks from the First Vice-President, Mr. J. L. Pridham. He, like all the other members, had been struck by what he aptly termed the revelation of the day's outing. Mr. and Mrs. Pridham also added greatly to the pleasure of the day by providing several boxes of delicious apples, cucumbers and tomatoes.

Mr. Laidman, of Vernon, an ardent enthusiast of the Farmers' movement, alluded to the tendency of older settlements to plead with their full strength and political weight for local improvements, at the same time forgetting the vital needs of the smaller districts whose appeal lacked that support. Here again was justification—were it needed—for the U. F. B. C. in the fullest sense of the word—United.

Mr. McPhail, of Salmon Arm, spoke as the boat drew into the wharf at Chase. He reminded the party of the picnic to be held on August 18, at Salmon Arm, on behalf of the District Association. He extended a cordial invitation to everybody.

Space does not allow to mention individually all those who in other ways contributed to the enjoyment of the day; but in conclusion it must be admitted that the inception of the scheme, and the efficient manner in which it was carried out once more added to the laurels of Mr. J. M. Humphrey. He is to be congratulated on the idea and its achievement and the U. F. B. C. is to be congratulated on having so capable and indefatigable an organizer.

ROBERTSON CUP FINAL TO BE PLAYED LABOR DAY

Kelowna football team will journey to Kamloops on Labor Day, September 6, to do battle with the pick of the soccer players of that city, in the final game for the Robertson Cup. The suggestion of the local officials to have the game played next Saturday, August 21, was not acceptable to Kamloops, who in turn proposed the Labor Day date.

If Kelowna can field their regular team, the same eleven that so decisively defeated Vernon in the semifinal for the Cup, local supporters look with confidence for the boys to return with the trophy in their possession.

The team will probably leave Kelowna early on Sunday, giving them opportunity for a full night's rest at Kamloops. As the game will most likely be played in the afternoon, the team will spend Monday night on the return journey.

K. A. A. C. officials would appreciate the donation of cars for the trip. The athletic organization of the city has been under a big expense in maintaining and equipping the athletes who participate, and to be burdened with the expense of providing transportation for the Kamloops trip is beyond their financial ability. It is expected a goodly number of supporters will be on hand to cheer the boys on to victory when the referee puts the ball in play.

YAWL MAKES RECORD ATLANTIC PASSAGE

What is believed to be a record passage across the Atlantic for a 35-foot yawl was made by the "Typhoon," which arrived on Aug. 9 at Cowes, Isle of Wight, after making a non-stop run from Cape Race, Newfoundland, to Bishop's Rock, a distance of 2,100 miles, in fifteen days and nine hours. Heavy seas were encountered but the little craft weathered them without difficulty.

"It is said that paper can be used effectively in keeping a person warm." "That's true. I remember a thirty-day note of mine once kept me in a sweat for a month."

LAWN TENNIS

The Okanagan Valley Lawn Tennis Association met in competition at Penticton, Friday and Saturday, Aug. 13 and 14. Kelowna representatives carrying off the honors in almost every event except the Men's Singles, won by Dodwell, of Summerland, who beat G. E. Seon, of Kelowna, in two sets. Dodwell holds the Incola Cup for one year. Other results were:

Mixed Doubles—G. E. Seon and Mrs. H. G. M. Wilson won the final, beating R. H. Hill and Miss Marjorie Leckie, of Kelowna.

Ladies' Doubles—Mrs. Wilson and Miss Marjorie Leckie beat Mrs. Watson and Miss Kidston, of Vernon, in the finals.

Men's Doubles—G. E. Seon and R. H. Hill, of Kelowna, won the final from Scholte and Wilmot.

GAME REGULATIONS FOR THE OKANAGAN

The game regulations for the season of 1920 have been published in the B. C. Gazette, and the provisions applicable to the Okanagan are as follows:

Open Seasons

Grouse—Sept. 4 to Sept. 20, inclusive.
Cock pheasants—Oct. 20 to Oct. 25.
Quail—Oct. 20 to Oct. 30.
Ducks, snipe and plover, Sept. 4 to Dec. 18.
Geese and brant—Sept. 4 to Dec. 18.
Bear—Sept. 1 to June 30, 1921.
Mountain goat—Sept. 1 to Dec. 15.
Caribou, of the male sex—Sept. 1 to Nov. 15.
Deer, mule only (white tail are protected), over one year old—Sept. 4 to Nov. 30.
All fur bearing animals except beaver—Dec. 1 to March 31.

Bag Limits

Ducks, 20 per day, 150 for season; geese, 10 per day, 50 per season; grouse, 6 of one species or 12 of all species in one day, 50 for season; pheasants, 4 in one day, 12 per season; quail, 10 per day, 50 per season; deer, three per season, of which not more than one shall be of the female sex.

BASEBALL

Armstrong is in the city today, playing Kelowna in the last league game of the Okanagan Valley Baseball League. Previous games between these two teams have resulted in close and interesting contests, and today's game should be worth witnessing. Norman DeHart will put them over and Clarke will do the receiving.

Arrow soft collars at McMillan's.

GET YOUR STUFF SELECTED FOR THE FALL FAIR

**Semi-Jubilee of the Agricultural and Trades Association Should
Be Marked by the Best Ever Display**

The Fall Fair this year will be the twenty-fifth to be held by the Agricultural and Trades Association, and the Directors hope that the semi-jubilee will be marked by the largest and best display yet exhibited. To assist towards this objective, certain changes have been made in the prize list, and the innovations should be productive of a large increase in the number of exhibits. Placing the fruit industry in its proper position in the prize list as the principal mainstay of the valley, and selecting apples as the chief product and as affording the most plentiful and attractive means of display, the Directors have divided the varieties into three classes, Class A comprising the standard varieties most generally grown and of the greatest relative importance, Class B those of slightly less importance and Class C other standard varieties. The prizes in Class A have been placed at the generous figure of \$10 for first and \$5 for second; in Class B, \$7.50 for first, \$3.75 for second; and Class C, \$3.00 for first, \$2.00 for second, and \$1.00 for third. This is a large advance as compared with the scale of prizes in former years under which the maximum prize for plate exhibits of the chief varieties was \$3.00, and for varieties of less importance, \$1.00.

Another feature which promises to attract large displays of the best products of the valley is that of the district exhibits, open to members of the United Farmers of B. C., for which \$150, \$100 and \$75 are offered as first, second and third prize. The various Locals throughout the Kelowna district have set their minds to carry off the honors, and competition promises to be keen.

The fancy work division list has been thoroughly revised and improved, and it is hoped the result will be a large increase in the number of entries. The poultry list has also been subjected to overhaul and a number of classes have been added.

It was hoped to publish the prize list earlier than usual this year, but unfortunately this could not be carried out. As the Fair will be held on September 8 and 9, three weeks earlier than last year, we have decided to print the fruit, produce and fancy work divisions in this issue, so that intending exhibitors can ascertain the classes for which prizes are offered without waiting for the booklet. The other divisions, with the exception of additions to the poultry, will be substantially the same as last year.

Now all get together to make the 1920 Semi-Jubilee Fair a tremendous success!

DIVISION 6.—FARM PRODUCE

Class	1st	2nd
1—Dairy Butter, made by exhibitor, not less than 3 lbs., in prints.....	\$3.00	\$2.00

PREPARING BEES FOR THE WINTER MONTHS

(Experimental Farms Note)

The successful wintering of bees is often ascribed to luck. But investigations carried on at the Central Experimental Farm, Ottawa, during the past eight years, show that there is very little ground for this view. Of 348 colonies wintered during this period, both in the cellar and out-of-doors, only seven per cent were lost, and this loss was ascertained in nearly every case to be due to definite causes, the principal causes being unwholesome and granulated stores and starvation. Most of the colonies lost from unwholesome stores did not die outright but became so weak that they had to be united to others.

The secret of success in wintering bees lies in their proper preparation. This preparation needs to be begun in July, when it is important to see that the colony contains a good, fertile queen, preferably one raised the same year, which will raise a large number of young bees in the late summer months.

Each colony needs about 40 pounds of wholesome stores for the winter and early spring, and this should be in the hive before the end of September in most places. Clover honey and syrup made from refined (not brown) sugar are wholesome. This year, owing to the high cost of refined sugar, it may be hard to provide sufficient good stores, especially in some parts of Ontario and Quebec where the clover was killed last winter, and chances may have to be taken with honey that the bees gather from other plants. Buckwheat honey is wholesome, but some of the honeys, for example, that come from wild plants in the fall are inclined to cause dysentery and death.

Winter protection is very important. If the bees are to remain outside, no better protection can be given than the four-colony case made large enough to hold about four inches of packing consisting of shavings, or dried leaves a year or more old, around the sides and beneath the hives, and double this thickness on top. The apiary must be well protected from wind.

If cellar wintering is followed, the bee cellar should be comparatively dry and it should be well insulated to prevent much variation in temperature. For a few colonies in a cold locality a boarded-off portion of the basement of the beekeeper's residence makes a good bee cellar and a furnace in the basement is an advantage. If the stores are wholesome and the bees have been brought in before severe weather, the best temperature for the bee cellar is between 45 and 50 degrees Fahrenheit. If, however, dysentery has developed, the higher temperature will cause restlessness and a few degrees lower will be advisable.

F. W. L. SLADEN, Apiarist.

POULTRY ACCOUNTS

(Experimental Farms Note)

Three dollars profit over cost of feed each year for every hen on the farm is a very good return, and, according to monthly accounts received from farmers by the Poultry Division of the Experimental Farm, Ottawa, there are a good many farmers' poultry flocks which are actually giving this profit every year, and some even better.

Poultry keeping on the farm is not merely a side line now but is a sane business proposition, and the hit-and-miss methods that formerly obtained in poultry work should no longer be tolerated. A national industry well on to the one hundred million dollars a year demands business methods, and in order to help the industry and to make it possible for the average poultryman to keep track of his poultry operations, the Poultry Division has put out a very simple form for poultry accounting, copies of which will be sent to any person making application and who will return to the Poultry Division each month a duplicate copy.

A Few Figures

For several years these poultry accounts have been supplied to persons asking for them and a compilation of the reports shows some very interesting data. For instance, of all the farms reporting their poultry operations, 84.5 per cent of them show a profit, and of this number the average receipt over expenditure for each hen per year is \$2.04. As might be expected, a number of reports show a distinct loss each year and that is where one of the benefits of the account form comes in. Either the farmer himself or the Poultry Division at Ottawa can pick out the weak point or points and have them rectified.

Some other interesting figures are obtained from these reports. Among

these are the figures that show that the average number of hens on the farms reporting is 52.9, the average expenditure per hen, that is, for feed, appliances, etc., is \$2.91, and the average profit over expenditure is \$2.04. One farmer claims that he can attend to 100 hens while he is attending to one cow and his average return from 100 hens is \$250.00.

A Manitoba Farm Poultry Account

Mr. Frank Harman, Boissevain, Man., has been sending in these accounts for some time and his inventory for the past year shows a very good profit on investment. He keeps an average of 150 White Leghorn hens and for the 12 months his expenses were: Stock on hand, \$270; interest on capital invested, \$16.20; expenditure for feed and what appliances he purchased for the plant, \$292.37, or a gross expenditure of \$578.57. His receipts were: Sales of eggs, meat and stock, \$845.81; value of stock on hand at the end of the year, \$266.25, or a total receipt of \$1,112.06.

This leaves a balance over cost, without counting the labor, of \$533.49, which works out at an average profit over expenditure per hen of \$3.55. The average yield per hen was 132 eggs.

Good Prospects

The future looks bright for the poultry industry, and the man who can keep poultry, whether on the farm or in the back-yard, may look for remunerative returns if he uses business methods in his operations. Prices are good and though feed and labor may be high, one can take for granted that the higher the price of feed the higher the price of the product, and the labor question on a well organized poultry plant is not serious, for some one member of the family, even a boy or a girl, can often look after the poultry. The value of poultry products is being appreciated more each year. Last winter, when beef on a Canadian market was selling at from 10 to 12 cents for 1 lb. live weight, guaranteed new laid eggs were selling at 10 cents for two ounces or 80 cents a pound. It is about time that the Canadian hen was considered as a valuable asset.

If you want to make more money out of your poultry, write to the Poultry Division of the Experimental Farm, for free account forms. They will ask you to return each month a copy, but they will help you make your poultry pay.

OUR FOOD SUPPLY DEPENDS ON BIRDS

Do we appreciate our birds?

The west is threatened with a grasshopper plague, while in the east the caterpillar is causing havoc among the trees.

Man, by his insatiable slaughter of the birds, has so reduced the balance of nature that the destructive insects are getting the upper hand. Dr. T. M. M. Minister of Agriculture, in introducing his estimates in the House of Commons on May 24, stated that Canada's annual loss from parasites amounted to \$125,000,000, and that in preparation for the expected grasshopper plague alone, there had been purchased 100,000 pounds of arsenic, 2,000 tons of bran and 50,000 gallons of molasses from which to make poisoned bait.

To overcome, or at least to minimize, the caterpillar plague, various methods of attack are being adopted, chiefly that of spraying.

Recently, a woodpecker was noticed at work upon a tree which was being defoliated by caterpillars. With the aid of binoculars, it was found that, in one visit to the tree, it secured twenty-four caterpillars. This bird, or another, returned at about quarter-hour intervals, each time disposing of a number of caterpillars.

Birds are the natural enemies of insects and bugs and, without them, we could not successfully combat the pests which destroy our food supplies.

By protecting the birds, we protect ourselves.—Conservation.

PLUCKING ORANGES AN ART

Orange gathering and packing is not such a simple business as is generally supposed. The trees are high, and the fruit is so tender that careless handling at any stage will cause decay to set in, and through one defective orange thousands may be infected and spoiled. Every orange is taken from the tree by hand. The pickers stand on high step-ladders, which enable them to reach the topmost branches. Catching the orange in one thickly-gloved hand, they deftly sever its stalk with a sharp knife in the other, and drop it into a deep bag slung across the shoulder. To pluck the orange away would break the skin and allow decay to set in. Various devices have been tried for picking, with a canvas chute through which the orange slides gently to the ground; but hand picking still holds its own as the one satisfactory method.

METERING CITY WATER

In 1908, 49 per cent of the services in the city of Omaha were metered. In 1919, 91 per cent were metered, and, if the city services and unused services are deducted, 98 per cent were metered.

In the year 1908, the city pumped 6,144 million gallons of water. In 1919, although the population had increased to about 199,000, as compared with 145,000 in 1908, the consumption had only increased to 7,616 million gallons. Had the consumption not been fully metered, it would probably have been at least 10,000 million gallons, or 30 per cent greater than it actually was. This increased consumption would have necessitated additional pumps, new and larger mains, greater expenditure for upkeep and maintenance, and larger sewers to carry off the extra water.

The Omaha consumption is unusually high for a metered service, but this is due to the large use of water by the stock yards and packing houses which accounts for 36 gallons per head of population of the total consumption of 107 gallons.

The Omaha consumption of 107 gallons per head per day may be compared with the consumption in Ottawa of 175 gallons per head. Conservation.

Many a man who eats six meals a day thinks it is up to him to go out and preach against intemperance because he doesn't drink booze.

BOY SCOUTS' COLUMN

Troop First! Self Last!
Edited by "Pioneer."

Tuesday, August 17, 1920.

We are now settling all our camp affairs and all Scouts who have not yet paid their fees will please do so at once, so that we may get out a statement. We are much obliged to the firms of the McKenzie Co. and D. D. Campbell for discounts allowed and we also wish to thank Mr. J. Sutherland for his generous gift of 50 loaves of bread.

We have held our Troop Camp but there is no reason why an energetic Patrol should not have a camp of a day or two before school again opens. Six Scouts have handed in their names for the Rescuer's Badge and we hope to arrange for their tests immediately.

Scout C. Cunningham passed the tests for the Swimmer's Badge on Saturday before Mr. Robertson. Who in the troop does not hold this badge?

The Camp Diary, by "Wolf"
(Continued)

Saturday—We are by now getting used to rising in the chilly hours and did not mind the Bugle Call at 6:30. The weather has been beautiful so far and prospects are bright for a sunny, dry Camp this year. Tent inspection was this day won by the Otters and they retained the flag for the day. During the morning we were delighted to notice the Commissioner looking forward to the football fray tonight by tying rope across our goal-posts in order that there may be no more doubt as to when a goal is a goal or not. Routine was as usual today and after lunch the troop went away from Camp for the space of one hour, returned and wrote a report upon what they had seen and done. In reading over these reports I was glad to notice that we have some budding poets in our midst. One Scout in particular is to be commended for this. He describes a hasty return to Camp by himself and his companion as follows: "The thunder rolled and the lightning flashed as we pursued our way speedily." We congratulate our friend on being able to describe an everyday thunderstorm in such eloquent language. After bathing parade and tea we prepared for our football match. Just before supper a carload of toughs from town arrived. In saying "toughs" we do not know whether we dare include A.S.M. Alex Smith, from our Summerland cousins, but however that may be, he did arrive, accompanied by Anthony DuMoulin, Clair Rowcliffe and A.S.M. Parkinson. These fellows, feeling in a pugnacious mood after the food supplied by the quartermaster, decided to join in the game. And a marvellous game it was! We fought, we tussled, we kicked, we raised a terrific dust that spread over the lake for miles, but at the end of it all we were in as big a fix as ever. The score was two all. Alex Smith showed up for the opposing side and was greatly responsible for the two goals scored by them. Our visiting friends departed battered and bruised after this with the exception of Smith and Parkinson, who remained the night with us. After a camp fire and feed of ice cream supplied by Mr. DuMoulin, we turned in.

Sunday broke forth into sunshine but it was not till seven o'clock that we awakened from a drowsy sleep. We were to have a march past, service and several visitors today, so fiendish preparations were made as regards uniform and tents. We rehearsed the march-past in the morning and were ready for the first visitors who arrived about noon. These were the Summerland Troop who had promised to spend the day with us. As soon as the ferry which conveyed them became distinguishable, the signalling flags were out and messages flashed between the boat and the shore. As soon as they got ashore all enjoyed a swim and were then ready for lunch which was served in two relays, one for our troop and one for the visitors. After lunch the weather went back on us and it began to rain but cheered up slightly in time for the march-past and service, both of which were taken by the Commissioner. A swim followed and before departing a challenge was issued for a game of football between Kelowna and Summerland. The teams took the field and after a tremendous battle we finished with two goals for us and none against us. The game was very even and good play, was featured by both sides. After bidding a sad and fond adieu to our visiting troop, accompanied by cheers on both sides, we had tea and after camp-fire retired to our tents for the night.

(To be continued in our next)

FICTION READER

"Boys," said the Sunday school teacher, "Can any of you tell me about Good Friday?"
 "Yes'm, I can," replied an urchin at the foot of the class. "He was the man what did the housework for Robinson Crusoe."

BEEKEEPING NOTES

(By Will H. Gray, Inspector of
Apiaries, Kelowna)

Sudden changes of temperature from warm to cool weather often result in chilling of the brood. The bees in a hive cover the brood keeping it warm by the heat of their bodies. Naturally in warm weather they do not need to cover it so closely, perhaps not at all. Then when a cold spell comes they have to cluster and keep as much of it as they can alive. The larvae and pupae on the extreme outside generally suffer, dying in their cells from cold, just as the outside eggs under a hen, that has too many, will get chilled. If there is a great deal of empty space that the bees are not using, it makes it all the harder for them to keep up the temperature in cool weather. For this reason the wise beekeeper contracts or expands the brood nest by the use of a close fitting dummy board, and so helps the weak ones to build up. In a state of nature the bees would choose a residence in a hollow tree with from six inches to a couple of feet of solid wood, protecting them from sudden changes in the atmosphere. In practice it is hardly feasible to make hives with walls of six-inch lumber, but we should at least do something better than the seven-eighths walls and half-inch bottom boards, that are all the protection given many colonies. It is no wonder that colonies wintered in such hives are late in building up, so that the season is over by the time they are at full strength.

Many experienced beekeepers use the packing case in winter only, putting four together in a square, with a big case around them, and sawdust between the hive and outer case; the advantage of this system is that they help to keep each other warm. They can also be put in a row and packed similarly.

The individual hive case is more expensive, but all those who use it seem to think it amply justifies itself in honey crop, which, after all, is the ultimate aim of the beekeeper.

The firm of Dadant & Sons winter their hives with a sort of mattress of dry leaves laid on chicken wire and tied round the hive, covering three sides but leaving the front exposed. Besides this they use a telescope cover also filled with dry leaves.

Any beekeeper who is handy with tools can get the measurements from the hive case at the Horticultural office, and make it himself. This hive case was worked out by Mr. Sheppard, the Chief Apiary Inspector. It is used with entire success throughout the Kootenays, where the winters are longer and more severe than in the Okanagan. This hive case is meant for all the year round use, the bottom and first brood box being permanently packed.

Yet another way of wintering that is practised successfully here by Mr. George Thompson, who usually gets honey if there is any to get, is the cellar method. As soon as the cold weather sets in properly, he puts all his hives in a root and apple cellar, leaving them there till about the first of April. In the summer he drapes sacks over them to keep off the direct sunshine.

Provincial Items

The Tariff Commission will hold a sitting at Vernon.

The Clinton Hotel has been sold to a firm of Chinese.

Control of the Tranquille Sanatorium has been taken over by the Provincial Government as from August 1.

The Farmers' Institute and the Local of the United Farmers, at Vernon, have united.

Gate money and other receipts from the sports at Vernon on Aug. 4 and 5 totalled nearly \$8,000, and it is expected there will be a handsome surplus after all outlays are met.

The mosquito pest is so bad at Port Kells, on the Fraser River, that a number of sawmills have had to close owing to the unwillingness of men to expose themselves to the attacks of the mosquitoes in the woods.

The fees for near-beer licences in Penticton have been set at very low figures, viz. \$15 for six months, when the beer is consumed on the premises, and \$5 for six months when the beer is not consumed on the premises.

The right of way of the K. V. R. branch line from Penticton to Dog Lake having been cleared, grubbing and grading are now in progress, and the track should be ready for the steel, which has arrived at Penticton, in about six weeks.

Local and Personal

Mrs. E. Barber went to Calgary on Saturday.

Mrs. Jas. Riggs left for Vancouver on Tuesday.

Miss Mahdy was a passenger to Banff on Friday.

Mr. W. Petch went to Swift Current on Monday.

Mr. Geo. Sutherland left for Swift Current on Monday.

Mrs. H. G. Blair left on Friday for a visit to Toronto.

Mr. Stephen Sharrup left for Indian Head on Monday.

Mr. Harry Burns was a passenger to Calgary on Monday.

Mrs. Ingram and two children went to Calgary yesterday.

Mr. and Mrs. S. V. Ware were passengers to Victoria on Thursday.

Miss L. E. Anderson left on Tuesday for Australia, via Vancouver.

Mrs. D. E. McDonald, of Rutland, is visiting Duncan, Vancouver Island.

Mr. and Mrs. Jardine took their departure for Medicine Hat on Monday.

Mr. C. Wilson took the Lakeshore Stage on Tuesday, en route to Vancouver.

Mrs. Clark, who had been visiting Mrs. A. Mitchell, left for Medicine Hat on Tuesday.

Mr. J. Rowell is paying a business visit to Regina, for which city he left on Friday.

Mrs. McDonald returned to Grande Prairie yesterday, at the conclusion of a visit to her aunt, Mrs. Ennis.

Mr. Bernard Hooper arrived from Seymour Arm on Tuesday, and will remain throughout the fruit packing season.

Mrs. F. C. Fyvie left for Toronto on Friday, after several months' visit to her daughter, Mrs. A. H. DeMara, Benvoulin.

Major E. J. Maguire returned on Thursday last from Arrow Lake, where he had been engaged in survey work in the Nakusp district.

Mrs. J. D. Harper and sons, Douglas and Herbert, of Winnipeg, arrived on Monday on a visit to Mr. and Mrs. R. J. Brown, of Graham Street.

Mr. and Mrs. A. H. Nicol and daughter Helen, of Calgary, are visiting Mr. and Mrs. N. B. Runnalls at their ranch, "Alfadale," Kelowna.

Mr. W. H. Beach, an old-time prospector in the Christina Lake country, spent yesterday in town visiting Mr. G. C. Rose and other former residents of the Boundary.

The Silver Championship Cup, given by the Directors of the Kelowna Aquatic Association to the competitor scoring the highest number of points in the Regatta, was won by Mr. Ian Weddell, with four firsts and one third, scoring 114 points. The runner-up was Capt. O. V. Maude-Roxby, M.C., with one first and two seconds, totalling 56 points.

A few days ago Mr. J. E. Reekie, of East Kelowna, discovered two bald eagles molesting his chickens, and he succeeded in shooting both of them. One of them managed to fly across Mission Creek before it fell to the earth but the other came down near at hand and he secured it. The bird measured five feet from tip to tip, although apparently not quite fully grown.

The two remaining events of the Regatta were brought off on Saturday afternoon. Miss Ethel Burne won the 300 yards Ladies' Swimming Race, with Miss Rita Ramage, second, and Miss Mary Burne, third. The Men's Double Sculls was won by Messrs. Boucher and R. Parkinson, Messrs. G. Mantle and R. Robertson taking second place and Messrs. R. and M. de Pyffer, third.

Probably few people know that one of Kelowna's industries consists of breeding canaries. Mrs. G. Butler made a shipment of one hundred beautiful little songsters to Saskatoon on Wednesday. They were housed in a roomy cage with plenty of space to exercise, and seemed quite happy and content. Kelowna-born canaries and Kelowna-grown apples will bring joy of mind and body into many Saskatoon homes this fall.

Mr. and Mrs. C. H. Swart are registered at the Palace Hotel. Mr. Swart is a salesman connected with F. R. Shikora, of Penticton, representing the Taylor Engineering Co., Ltd., of Vancouver, Canadian Fire Hose Co., Ltd., the Northern Electric Co., Ltd., and the Waterman-Waterbury Co., Ltd., in this district, and is here for the purpose of looking over the territory with the intention of making Kelowna his headquarters in the near future.

CHURCH NOTICES

The usual Church of England service will be held at Rutland, Sunday next, at 3 o'clock.

An Anglican Church service will be held at the Whelan Church, Ellison, on Sunday, 22nd inst., at 7 p.m.

At the morning service in the United Church on Sunday next, Mr. Drury Pryce will play "An Indian Lament" (Dvorak) and "Air on the G String" (Purcell). In the evening, Miss Doris Williams, of the Metropolitan Choir, Regina, will sing "The Voice in the Wilderness."

NOTICE

Licensed Scalers' examination will be held at Penticton, Tuesday, August 31, and Lumby, Thursday, September 2. Candidates should present themselves on these dates to Mr. Jas. Milroy, Assistant Supervisor of Scalers. Further information regarding time and place of examination may be obtained from Assistant Forest Ranger J. W. Stewart, Penticton, Assistant Forest Ranger L. J. Gooding, Lumby, or from the District Forester, Vernon. 5-2c

DRAFT EVADER GETS FOUR YEARS HARD LABOR

NEW YORK, Aug. 19.—Erwin R. Bergdoll, of Philadelphia, has been found guilty of desertion from the army by evading draft, and was sentenced yesterday to four years hard labor in Fort Leavenworth.

HAIL DESTROYS TEN THOUSAND ACRES OF GRAIN

WINNIPEG, Aug. 19.—Ten thousand acres of grain in the Kiskey district, Saskatchewan, suffered destruction by hail yesterday, the storm lasting half an hour. The destroyed crops were insured.

OKANAGAN MISSION

Dr. Wilson Herald is staying at the Bellevue Hotel. Dr. Wilson, who has been ranching in the Chilaka Valley, south of Prince George, in all probability will take up laud in the Kelowna district.

Mr. and Mrs. R. Sweny left on Wednesday last on a visit to Vancouver, travelling by automobile.

Mr. George Sweny left on Friday for Vancouver.

At the Regatta last week held in Kelowna, Miss Poston obtained second prize for ladies' diving and Mr. Tig Clarence, second in the 100 yard dash for youths under 16 years of age. These were the only prizes won by Okanagan Mission.

The G. W. V. A. desire a flag-pole preferably cedar, length about 45 feet. If anybody around here would give one of these poles we would take the necessary steps to cut it down and have it taken into town.

Butter! Fancy a rural district like this being unable to obtain the necessary supply of butter!

Mr. W. Garbutt was a visitor to Okanagan Mission from East Kootenay on Saturday last.

A meeting of the owners of No. 1 flume (Lot 358) was held yesterday 18th inst. A report of this meeting will appear next week.

A meeting was held during the latter part of last month to consider once again starting the Sunday School in this district, which service for the children has not been held here since June, 1914. All members of the congregation of St. Andrew's Church, Okanagan Mission, have, we believe, received a circular letter from the Ven. Archdeacon Greene impressing upon parents that the success of the Sunday School entirely depends upon the co-operation of the parents with the teachers. Should anyone not have received one of these letters, application for one should be made to Mr. R. Gray.

It was also suggested at the meeting referred to above that as there would be certain small expenses in connection with the Sunday School such as purchase of instruction books, etc., for the children, those who do not take part in the teaching might like to help by a subscription. This could be placed in the Church offertory in an envelope and marked "St. Andrew's Church Sunday School Fund."

The Sunday School will begin on the first Sunday in September, 1920 at 10 o'clock a.m.

Do not forget the Okanagan Mission District exhibit.

A special meeting will be held in the School House at 8 o'clock, on Friday evening, to consider the proposed scheme of incorporating Okanagan Mission with the Canyon Creek Irrigation Co., Ltd., and South Kelowna Orchard Co., Ltd., in the proposed irrigation scheme. This notice appeared on page seven of last week's issue. All must attend.

Miss Ferrier was a passenger to Victoria this morning.

Mr. H. W. Swerdfager, C. P. R. agent, has been promoted to the agency at Kamloops and will take over the duties at an early date. Mr. Swerdfager and his family have made many friends during their years of residence here, and their departure will be generally regretted.

WHAT IS HE?

"Last year I asked my best girl to become my wife, and she said 'No!' But I got even with her, I married her mother. Then my father married the girl. Now I don't know what I am."

"When I married the girl's mother the girl became my daughter, and when father married my daughter, she was my mother. Who the dickens am I? My mother's mother (which is my wife) must be my grandmother, and I being my grandmother's husband, I am my own grandfather."

WOULDN'T DO IT

Dugan—So you called me a prevaricator?
Cassidy—Ye're a liar! Oi did not.
—Boston Transcript.

CURED JUST THE SAME

A patient who had sent for the doctor remarked that "he had not the slightest faith in modern medical science."

"That doesn't matter in the least," replied the doctor. "You see a mule has no faith in the veterinary surgeon and yet he cures him all the same."

She had been taught to pray for the things she desired. It was very dry and hot, and everybody was looking anxiously for rain. Suddenly it occurred to the little miss that she might pray for rain, and she acted on her impulse at once.

In a few minutes there came a terrific thunder shower. Streets were flooded, trees were blown down, and other damage was done. After the shower the child's mother found her standing at the window looking out with a rueful face upon the debris, and heard her say in an awestruck voice: "Oh, Lord, what have I done?"

SPOILED BY SUCCESS HE RECONSTRUCTS LIFE

Lazy Author Finds a New Stimulus to Action in Old Virginia

"Toby's Bow," starring Tom Moore, will be seen at the Empress Theatre, Friday and Saturday. This Goldwyn picture has been adapted from the stage play by John Tainter Foote, and ran for five months in New York City.

The story shows the folly of resting on laurels won by one clever piece of work. Tom Blake (Tom Moore) has written a very good book and success has spoiled him, for he becomes indolent and follows the "rivolous" fads of the Greenwich Village Bohemian set in New York. His friends and publisher become disgusted with his shallow life and refuse to finance him further until he promises to leave the city.

He finally consents to rest up on a dilapidated estate in Virginia; and here the hero is given an opportunity to see the struggles of Eugenie Vardaman (Doris Pawn), an ambitious, but untalented authress, for recognition. The family is in sad financial straits, and Virginia hopes to do her bit with her typewriter. The man has genius but is too lazy to work hard, but when his deepest sympathies are touched, his entire life is reconstructed and he and the girl together find a way out of their difficulties. How they do it furnishes the conflict in "Toby's Bow," in which Tom Moore and Doris Pawn have the sterling support of Arthur Housman, Augusta Phillips, Macey Harlan, Nick Cogley, Catherine Wallace, Violet Schram, Ruby LaFayette and George Kuwa.

VOCAL RECITAL AT THE EMPRESS THEATRE

Miss Marion Evelyn Cox, the charming New York contralto, assisted by Miss Doris Proudfoot, violinist, also of New York, will be heard in a unique recital at the Empress Theatre on the evening of Monday, September 6.

Miss Cox is one of the most promising young contraltos now on the stage. During the period of her attendance at Adelphi Academy in Brooklyn she pursued her vocal studies very diligently, and, after graduating, she launched out on the vocal seas with a definite motive, to reach the port of success. Undoubtedly the audience which greets Miss Cox on September 6 will agree that she has arrived at the high goal of her desire. Her programme here will include many favorite concert numbers and heart songs, with the assistance of Miss Proudfoot, who is a violinist of marked ability.

The recital is given through the courtesy of The Morrison-Thompson Hardware Co., Ltd., Edison, dealers for this district.

GREAT DAMAGE DUE TO TERRIFIC CLOUDBURST

BINGHAMPTON, N. Y., Aug. 19.—Twelve towns inundated, three bridges swept away, the tracks of the Lackawanna and Delaware & Hudson railroads torn up and property damage to the extent of hundreds of thousands of dollars, resulted from a terrific cloudburst in this vicinity yesterday.

To soften an old brush in which the paint has been allowed to dry, heat some vinegar to the boiling point and allow the brush to simmer in it a few minutes. Remove and wash well in strong soapsuds and the brush will be like new.

ENGINEER KILLED BY EXPLODING LOCOMOTIVE

COURTENAY, Vancouver Island, Aug. 19.—By the explosion of the boiler of a locomotive engine near here yesterday, the engineer was blown sixty feet and killed, and the fireman and a brakeman were badly injured.

Here Gentlemen!

Is the First Authentic Information on Correct Dress for Fall 1920 Wear

WE'RE READY NOW, Mr. Good Dresser, to give you first hand information on "what's what" in Fall Clothes—tell you about the right styles, the good weaves, the smart patterns, give you really correct information.

You'll find a degree of quality that insures real service, shapely clothes that remain shapely, tailored for style permanency and accuracy. The woollens are reliable, dependable, good—built for service and guaranteed to give it. We've priced the clothes on a basis of real value to you—we're selling them "close"—we're going to get our profit by selling a lot of them at a small profit rather than a few at an exorbitant price.

But—we can show and prove far easier than we can tell. This announcement is just to let you know that we're ready to show. We think it will be to your advantage to see.

WARNING TO THE PUBLIC

The 1920 Fire Underwriters' Report gives Kelowna a very bad name on account of defective electric wiring.

The Provincial Electrical Inspector, when here this week, demanded that some recent electric installations be improved and brought up to conform with Standard Requirements.

The Local Electrical Inspector has refused to pass several jobs and even had to bring a case into the Police Court to enforce the by-laws.

Why run the risk and danger of improperly installed Electrical Work, or the annoyance and inconvenience of having your wiring condemned and done all over again?

HAVE YOUR ELECTRIC WORK DONE BY RESPONSIBLE ELECTRIC FIRMS
